

ZACH SHERMAN | BIOGRAPHY

Zach Sherman's debut EP **Are You On Drugs?** is an aggressive mix of garage punk and tuneful emo, the raw sound of an addict who's gone all the way to the edge and lived to sing about it.

"I write songs about what inspires me. Love, addiction, recovery; these are the three pillars of my existence, part of a vicious cycle that replays itself over and over."

Zach's songs are shout-along blasts of chaos and romanticism. His vintage acoustic is distorted. His rhythm section hits hard under wisps of piano and cello. It's a beautiful noise.
